THAT PITTSBURG GAME

Liverpool Very Much in Evidence Saturday.

MORE GOOD WORDS FOR MERCER

Carey is Pleading Syracuse People and Has a Good Record so Far This Season. Lynch May go to Oil City—Other Base Ball Items.

Mercer won his seventh game Saturday, although it is not altogether his fault. Winnie received poor support, but at the same time was pitching good ball. A great many Liverpool people were in the grand stand and "rooted" hard for him. A collection was taken up on the train, and the first time he came to the bat a handsome basket of flowers was presented to him by his friends from here. In the seventh inning, when Washington scored 11 runs, one of the Liverpool delegation became so excited that the park policeman called him down. Mercer received a \$25 fine for kicking.

It was indeed wonderful to see the interest that was taken in the game by people here, and long before it was time to receive the score almost every crank in town wanted to know how Winnie came out. Even the ladies were anxious about the game and would ask their acquaintances if Washington won the game. When the score was put up on the board in an uptown store, the crowd for the first time this season cheered, and everyone seemed to be glad that Mercer still had a clean record of victories.

The Washington correspondent of the Sporting Life this week says: "Men who were never known to talk base ball can now be found every evening at the nearest corner shop, consulting the bulletin, and talking about that man Mercer, for aside from the influence of Joyce's captaincy, the young pitcher's almost wonderful work has made the present standing of the club possible. That he has been backed up by the finest and steadiest kind of fielding, goes without saying." In another place, in commenting on whether the team can hold its present place, he says "Mercer cannot do all the pitching."

The Brooklyn man says: "Mercer is pitching fine ball in spite of his attack of smallpox, and the New York correspondent adds: "Win Mercer pitched a game against Foutz's men last Saturday that would have made a Young, a Rusie, a Nichols, or a Breitenstein feel proud."

Nichols, of Boston, is perhaps the finest fielding pitcher, though Mercer, of the Senators, is a close second.—Pittsburg Chronicle.

George Carey is doing good work for Syracuse, and has a record in the first four games played in that league of three runs, six hits, 43 put outs, six assists and one error. That he has caught on with the people of that city is shown by the following taken from the Syracuse letter to the Sporting Life: "George Carey, of Oriole fame, was the bright particular star with the stick, followed closely by Sir William Egan. These players bunched the ball and bumped it hard. Carey's first base playing has caught the popular fancy. The old fans proclaim that he is even superior to the renowned Alex M. Kinnon, of the famous 'Stars of '76,' and this is the first instance on record where this admission has been made."

The Westlake boys are with the Hazelton Pennsylvania league team, and are both playing good ball, while "Bobby" Cargo is playing short stop with the Carbondale team of the same league. "Dicky" Padden is playing in his old time form at second base for Toronto.

The game at New Cumberland Saturday resulted in a score of 7 to 4 in favor of Toronto. The ball players from here acquitted themselves in fine style, and will probably be included in the regular makeup of the two teams hereafter.

Mike Lynch received word Saturday from Oil City to report for duty on Wednesday, as they would accept his terms. Lynch will not leave unless he receives a railroad ticket from Manager Heckner in advance.

The Columbias went to Wellsville on Saturday afternoon and were "robbed," as they claimed, by a fellow named "Squink" Morrow, who went in to umpire the game at the fourth inning, the Wellsvilles not having a run to their credit at that time. The boys say that Morrow said that "he would fix them" before he started to umpire, but that it was useless to kick, and that he did "fix" them in good style, for when the game wound up, the score was 17 to 9 in favor of Wellsville. The batteries were Far-

rish and Chambers; Turner and Regar. Another game will be played between the two clubs, but it will be played here, as the East End boys say they never received as "rotten" treatment as they got Saturday, and don't wish to experience any more of it.

The Oakdales have arranged with East Palestine to play two games in that place on Decoration day.

A letter has been received by the secretary from a cricket club in Cleveland asking if the team which played here three years ago was still in existence, and if so they would like to arrange a game with them. The East Liverpool cricket club disbanded about two years ago, and although frequent attempts have been made since that time to reorganize, it has resulted in failure.

A SCORCHER.

Many Cyclers Wish They Had Remained at Home.

Many cyclers left the city yesterday morning for other parts, and were subjected to a severe scorching. The morning air was so freshening and balmy that the temptation for a ride was too great to resist, and parties went to Beaver, Lisbon, Salem, Steubenville and other points. They were a sorry lot when they arrived home in the evening and no one could be heard expressing himself as having an enjoyable time. Old Sol began shedding his hot rays about 10 o'clock and kept it up throughout the day. Many of the cyclers on reaching their destination concluded to remain until today, not caring to again brave the fierce rays of the sun, and arrived home this morning, some awheel and others by train.

There were no accidents recorded, presumably because there was no desire for scorching on the part of the cyclers; they left that to the sun, which never lagged in its efforts to draw great beads of perspiration from their brows and peel the skin from their noses and ears.

A NEW GRADE

Of Ware to Be Made at Sebring's—Successful Trials.

Sebring Bros. are contemplating the manufacture of a new grade of ware, called porcelain granite, in the near future. A number of experiments have recently been made with the new body of clay, and invariably in each instance the results obtained were eminently satisfactory. This class of ware is almost similar to that made at the Buckeye, and being of a superior quality, is always in demand by the trade.

The manufacture of this grade of ware is, practically speaking, yet in its infancy, in this part of the potting district, many of the Trenton potteries having turned it out extensively for a number of years. William Tritt has been made foreman over the clay hands, which position was formerly looked after by Oliver Sebring.

Burford's decorators have been idle for several days, owing to a lack of orders, but in this department in other potteries general activity is noted.

A Township Line Road Bridge Gives Way Saturday.

Saturday afternoon while Phil McBane was driving across the wooden bridge at Clarence Wilcox's residence, on the Township Line road, the structure gave way and went down with a crash. The bridge broke while the team was in the middle, and the noise frightened the horses so that they reached the bank before the bridge went down. The commissioners examined the bridge some time ago and pronounced it safe, when asked to replace it with an iron one, but the recent rains and bad weather tended to weaken the structure, and it is now lying at the bottom of the run. Last August a similar bridge gave way farther out in the country, while a traction engine was crossing, resulting in an employee having his arm broken, while the machine was wrecked.

Heber Davidson called at the News Review office this morning to refute an item published Saturday, and while admitting that he ran down a boy on Friday afternoon, said he was not racing, but was going at an average speed. Heber says the boy was but slightly injured, and instead of being unkind to him expressed himself as sorry that the accident occurred.

THE EVILS OF A CITY

Rev. Taggart Delivers an Interesting Sermon.

ABOMINATIONS THAT PREVAIL

In Our Country and City, Such as Sabbath Desecration, Political Bossism and the Liquor Traffic Should be Cried Over and Fought Against.

Sighing and crying for the abominations that are done in the city.

At the First U. P. church last evening Rev. J. C. Taggart referred to some of the evils carried on in our city, and presented the attitude the true Christians should bear toward them.

The text chosen as basis of the sermon was Ezekiel ix. 4:—"And the Lord said unto him, go through the midst of the city, through the midst of Jerusalem, and set a mark upon the foreheads of the men that sigh and cry for all the abominations that be done in the midst thereof."

After the statement that the text was suggested by the knowledge that work on the bridge was carried on on the Sabbath as on other days of the week, the speaker presented the circumstances under which the vision of the abominations done in Jerusalem was given to the prophet and referred briefly to what they were. Then looking at the command of the text, he noted the description of those who were to be marked for salvation from the impending ruin, in which there is a vivid picture of the character and conduct of God's children in the midst of the wickedness of the world. "They sigh and cry because of the abominations of the city."

They are sighing ones. The sins they see about them fill them with sorrow.

They are crying ones. First they cry to God in prayer for relief. They are a praying people.

Then they cry out to men against the evils. They are protesting and witnessing people. They lift up their voice against abounding sin, and seek by all the means in their power to drive it from their midst.

This practical protest against evil is the only sure way of showing that their sorrow, on account of it, is genuine, and the only way to meet the approval of God and secure his help in its overthrow. This was illustrated by the concerted action of the lovers of the Bible, in removing the stigma placed on God's word in forbidding it to be read in our schools.

Reference was then made to various abominations that prevail in our country and city, such as Sabbath desecration, greed for wealth, worldly pleasures, political bossism, and the mother of all abominations, the liquor traffic. These are to be not only cried over, but fought against, and that in a practical and effective way. If we can't drive them from our midst altogether, let us do so far as we can. If we can't close the saloons altogether, let us at least shorten the hours of their ruinous business; never, however, lessening our efforts to drive the abomination from our midst and from the land.

Encouragement was drawn from the fact that the Lord's mark was upon all who sigh and cry for the abominations specified. This is a mark of separation, of visible designation, of possession and of safety. The Lord has his seal upon those who are his, and who for him contend against the evils of the world, and when the time of reckoning comes he will preserve them from the judgment that will sooner or later fall upon the ungodly and impenitent.

VEHICLE MONEY.

A Fat Check to be Handed to the City Treasurer.

Mayor Gilbert made out a check this morning calling for \$1403.70, the total amount, less the mayor's fee, for the issuance of vehicle licenses up until the present time. Marshal Johnson and Officer Meador looked wistfully at the little slip that will be turned over to Treasurer Herbert, and exchanging significant glances with one another, each acquiescing in the thought of how nice it would be if the check was made out to them.

A SHOW BOAT

Stopped Here For a While Yesterday Afternoon.

French's Sensation is the name of a floating theatrical craft that stopped here for two hours yesterday afternoon to take on coal. The boat was bound for Pittsburgh, after putting in a season at New Orleans. A lady pilot was in charge of the craft and skillfully manned the wheel. The tow boat

Ruth, fitted out with a steam calliope, propelled the show boat, the sides of which were adorned with scenes of an attractive nature.

A DAMAGE SUIT

For \$5,000 and Many Witnesses Notified to Appear.

The case of Harriet Woodburn against Adella Morris, both parties of this city, has been listed to come up for trial in Lisbon on Wednesday, but being preceded by two other cases to be tried on the same day, the probabilities are that the first designated case will be carried over until Thursday and possibly Friday. The suit is for \$5,000 damages, the ground of action being based upon internal injuries that Miss Woodburn claims to have received by falling through a coal hole that was defectively covered, in the pavement fronting on the property owned by Della Morris on Walnut street. The following witnesses have been summoned to appear at court and give testimony: Dr. W. N. Bailey, Mrs. Sina Faulk, Jennie Sutton, Maggie Hipner, George Wucherer, George Blake, Thomas Hodge, Curt Culbertson, Harry Falls and wife and William Welch.

EPWORTH LEAGUE.

The Seventh Anniversary Will be Very Enjoyable.

On next Sabbath, May 17, at the First M. E. church of this place, the seventh anniversary of the Epworth League will be observed. Reverend Lane, of Uhrichsville, will occupy the pulpit morning and evening, the pastor of the church exchanging pulpits with him. The new officers of the League will be installed at the evening service. The regular services of the League will be held at an earlier hour than usual, commencing in the lecture room at 15 minutes of 7 o'clock, when the reception of new members will take place. The active members of the organization, in company with the officials, will use every effort to make the anniversary a success from every standpoint. The local League has accomplished much good, in the hands of Providence, in this city of East Liverpool, and the indications are that it will be instrumental in still greater good.

A BIRD RACE.

Remarkable Flight of a Number of Homing Pigeons.

The East Liverpool Homing club sent a number of pigeons to Wooster, a distance of 101 miles, Saturday. The birds were released at that place on Sunday morning at 10:32 and two of the four birds belonging to Elias Sherwood arrived home at 11:30, making the entire distance in 58 minutes, which seems almost incredible. Herbert Smith's bird came in second, while that of Mr. McKinney came in third. There are now seven members in the club, and a number of others have signified their willingness to join. Those having pigeons in yesterday's race were George Meredith, Elias Sherwood, Mr. McKinney, Herbert Smith, James Shaw, William Barker, and in all 16 birds were entered. Another race will be arranged for the near future over a longer course.

WILL NOT RUN.

City May Not Have Water From the Diamond Pump.

The most recent obstacle that begets the path of the Diamond pump committee is the action of the water works committee in refusing to permit the operation of the pump with water as a motive power. Superintendent Morley, as per instructions, informed one of the committee on Saturday that if the pump was to be run they would be charged up with \$70 for the use of the water. This, the pump committee think, is unjust, and say that if they are forced to advance the amount exacted by the water works people before the pump can be operated, it will have to stand still, as the funds on hand at present are so limited that an expenditure of this kind would not be possible.

A SMALL BLAZE.

A Hot Kiln Caused a Floor to Ignite Last Night.

About five minutes past 11 o'clock last night fire was discovered in the D. E. McNicol pottery. An alarm was sent in and the department arrived in quick order. The blaze was caused by a kiln that was being fired, the heat from it being so intense that the flooring ignited and burst into flames. The tops of the sprinklers melted and let out a flood of water, thus preventing the fire from spreading. The extinguishers were used by Captain Morley and the flames were soon subdued. The loss is slight, the only damage sustained being the charred flooring.

THE CONTENTS STOLEN

Of the Box Placed in the Corner Stone of

THE GERMAN LUTHERAN CHURCH

Twenty-nine Years Ago—The Theft Was Not Discovered Until Last Saturday Morning When the Stone Was Uncovered—Much Valuable History Missing.

Ever since the work of tearing down the German Lutheran church has been started, Reverend Reinartz and the members of his congregation have been waiting patiently until they would be able to get into the corner stone and get out the tin box which was placed therein. On Saturday morning the stone was turned over, and the box was pulled out, but it contained nothing but a brick.

The corner stone was placed in position in the fall of 1867, and the box must have been rifled of its contents on the same evening that it was placed there, for it would have been an impossibility to get at it any time later, for the building was erected at once. One man could have done the work very easily, as it was only a matter of turning the stone over. The thief took everything the box contained.

The contents of the box were a copy of the paper published in the city at that time, called Mercury, a history of the organization of the church and its charter members, a Bible, a hymn book, and all the coin in circulation at that time, up to a dollar; also a list of the members. Doctor Geise, late of Brooklyn, was the pastor at the time the corner stone was laid.

Reverend Reinartz was interviewed this morning by a reporter and said, that as far as he knew, there was no reason for anyone to steal the box. It was not known until Saturday last by anyone that the contents of the box were missing, except the man who stole it.

The theft will leave Reverend Reinartz without any data as to the early organization of the church, and much interesting history is lost. To say that the congregation feel bad over the occurrence is putting it mildly, as they have looked with anxious eyes for the opening of the corner stone, when the history of their church, which is one of the oldest in the city, would be exposed to their view.

The box was cemented in the corner stone, and was locked, but who ever stole it understood his business, and from the looks of the stone and box didn't have much trouble in securing the contents.

This is the first time that an occurrence of this kind ever happened in East Liverpool, and it is to be hoped that the conscience of the man who stole it (if he is still living) will so trouble him that he will return everything, or if he is dead he has undoubtedly received his reward.

Had a Breakdown.

Four young men, members of a social club of this city, started to drive to Beaver yesterday morning. When they got to Thompson's pottery a wheel of the vehicle got caught in a rut in the road and the buggy broke down. They returned and procured another conveyance. The journey was made without any further accident.

Fined \$7.50 Each.

The city kept good order Saturday night, and there were no arrests made. The three inmates of the jail, Charles McGavern, Michael Cassidy and Michael Strain, were individually assessed \$7.50 by the mayor, and not being hampered by an overabundance of funds, they are still confined in the cells.

A Funny Incident.

Last Friday night one wall of the German Lutheran church was still standing, and after the choir had finished practicing, they went down in a body and tore it down. The affair set the whole neighborhood in a commotion, as it was after 10 o'clock when the work was completed.

A Child Severely Burned.

A little child of John Burnett, of Broadway, Wellsville, was painfully burned this morning, by accidentally falling into a vessel of boiling starch. The little one was badly burned about the head, the flesh falling from its face in patches. It will recover.

Convention at Leetonia.

The Firemen's annual convention will meet in Leetonia Wednesday, and visiting delegations from Wellsville and other towns will be in attendance.

The Lord has his seal upon those who are his, and who for him contend against the evils of the world, and when the time of reckoning comes he will preserve them from the judgment that will sooner or later fall upon the ungodly and impenitent.

VEHICLE MONEY.

A Fat Check to be Handed to the City Treasurer.

Mayor Cilbert made out a check this morning calling for \$1403.70, the total amount, less the mayor's fee, for the issuance of vehicle licenses up until the present time. Marshal Johnson and Officer Menor looked wistfully at the little slip that will be turned over to Treasurer Herbert, and exchanging significant glances with one another, each acquiescing in the thought of how nice it would be if the check was made out to them.

A SHOW BOAT

Stopped Here For a While Yesterday Afternoon.

French's Sensation is the name of a floating theatrical craft that stopped here for two hours yesterday afternoon to take on coal. The boat was bound for Pittsburgh, after putting in a season at New Orleans. A lady pilot was in charge of the craft and skillfully manned the wheel. The tow boat

Ruth, fitted out with a steam calliope, propelled the show boat, the sides of which were adorned with scenes of an attractive nature.

A DAMAGE SUIT

For \$5,000 and Many Witnesses Notified to Appear.

The case of Harriet Woodburn against Adelia Morris, both parties of this city, has been listed to come up for trial in Lisbon on Wednesday, but being preceded by two other cases to be tried on the same day, the probabilities are that the first designated case will be carried over until Thursday and possibly Friday. The suit is for \$5,000 damages, the ground of action being based upon internal injuries that Miss Woodburn claims to have received by falling through a coal hole that was defectively covered, in the pavement fronting on the property owned by Delia Morris on Walnut street. The following witnesses have been summoned to appear at court and give testimony: Dr. W. N. Bailey, Mrs. Sina Faulk, Jennie Sutton, Maggie Hipper, George Wucherer, George Blake, Thomas Hodge, Curt Culbertson, Harry Falls and wife and William Welch.

EPWORTH LEAGUE.

The Seventh Anniversary Will be Very Enjoyable.

On next Sabbath, May 17, at the First M. E. church of this place, the seventh anniversary of the Epworth League will be observed. Reverend Lane, of Uhrichsville, will occupy the pulpit morning and evening, the pastor of the church exchanging pulpits with him. The new officers of the League will be installed at the evening service. The regular services of the League will be held at an earlier hour than usual, commencing in the lecture room at 15 minutes of 7 o'clock, when the reception of new members will take place. The active members of the organization, in company with the officials, will use every effort to make the anniversary a success from every standpoint. The local League has accomplished much good, in the hands of Providence, in this city of East Liverpool, and the indications are that it will be instrumental in still greater good.

A BIRD RACE.

Remarkable Flight of a Number of Homing Pigeons.

The East Liverpool Homing club sent a number of pigeons to Wooster, a distance of 101 miles, Saturday. The birds were released at that place on Sunday morning at 10:32 and two of the four birds belonging to Elias Sherwood arrived home at 11:30, making the entire distance in 58 minutes, which seems almost incredible. Herbert Smith's bird came in second, while that of Mr. McKinney came in third. There are now seven members in the club, and a number of others have signified their willingness to join. Those having pigeons in yesterday's race were George Meredith, Elias Sherwood, Mr. McKinney, Herbert Smith, James Shaw, William Barker, and in all 16 birds were entered. Another race will be arranged for the near future over a longer course.

WILL NOT RUN.

City May Not Have Water From the Diamond Pump.

The most recent obstacle that begets the path of the Diamond pump committee is the action of the water works committee in refusing to permit the operation of the pump with water as a motive power. Superintendent Morley, as per instructions, informed one of the committee on Saturday that if the pump was to be run they would be charged up with \$70 for the use of the water. This, the pump committee thinks, is unjust, and say that if they are forced to advance the amount exacted by the water works people before the pump can be operated, it will have to stand still, as the funds on hand at present are so limited that an expenditure of this kind would not be possible.

A SMALL BLAZE.

A Hot Kilo Caused a Floor to Ignite Last Night.

About five minutes past 11 o'clock last night fire was discovered in the D. E. McNicol pottery. An alarm was sent in and the department arrived in quick order. The blaze was caused by a kiln that was being fired, the heat from it being so intense that the flooring ignited and burst into flames. The tops of the sprinklers melted and let out a flood of water, thus preventing the fire from spreading. The extinguishers were used by Captain Morley and the flames were soon subdued. The loss is slight, the only damage sustained being the charred flooring.

THE CONTENTS STOLEN

Of the Box Placed in the Corner Stone of

THE GERMAN LUTHERAN CHURCH

Twenty-nine Years Ago—The Theft Was Not Discovered Until Last Saturday Morning When the Stone Was Uncovered—Much Valuable History Missing.

Ever since the work of tearing down the German Lutheran church has been started, Reverend Reinartz and the members of his congregation have been waiting patiently until they would be able to get into the corner stone and get out the tin box which was placed therein. On Saturday morning the stone was turned over, and the box was pulled out, but it contained nothing but a brick.

The corner stone was placed in position in the fall of 1867, and the box must have been rifled of its contents on the same evening that it was placed there, for it would have been an impossibility to get at it any time later, for the building was erected at once. One man could have done the work very easily, as it was only a matter of turning the stone over. The thief took everything the box contained.

The contents of the box were a copy of the paper published in the city at that time, called Mercury, a history of the organization of the church and its charter members, a Bible, a hymn book, and all the coin in circulation at that time, up to a dollar; also a list of the members. Doctor Geise, late of Brooklyn, was the pastor at the time the corner stone was laid.

Reverend Reinartz was interviewed this morning by a reporter and said, that as far as he knew, there was no reason for anyone to steal the box. It was not known until Saturday last by anyone that the contents of the box were missing, except the man who stole it.

The theft will leave Reverend Reinartz without any data as to the early organization of the church, and much interesting history is lost. To say that the congregation feel bad over the occurrence is putting it mildly, as they have looked with anxious eyes for the opening of the corner stone, when the history of their church, which is one of the oldest in the city, would be exposed to their view.

The box was cemented in the corner stone, and was locked, but who ever stole it understood his business, and from the looks of the stone and box didn't have much trouble in securing the contents.

This is the first time that an occurrence of this kind ever happened in East Liverpool, and it is to be hoped that the conscience of the man who stole it (if he is still living) will so trouble him that he will return everything, or if he is dead he has undoubtedly received his reward.

Had a Breakdown.

Four young men, members of a social club of this city, started to drive to Beaver yesterday morning. When they got to Thompson's pottery a wheel of the vehicle got caught in a rut in the road and the buggy broke down. They returned and procured another conveyance. The journey was made without any further accident.

Fined \$7.50 Each.

The city kept good order Saturday night, and there were no arrests made. The three inmates of the jail, Charles McGovern, Michael Cassidy and Michael Strain, were individually assessed \$7.50 by the mayor, and not being hampered by an overabundance of funds, they are still confined in the cells.

A Funny Incident.

Last Friday night one wall of the German Lutheran church was still standing, and after the choir had finished practicing, they went down in a body and tore it down. The affair set the whole neighborhood in a commotion, as it was after 10 o'clock when the work was completed.

A Child Severely Burned.

A little child of John Burnett, of Broadway, Wellsville, was painfully burned this morning, by accidentally falling into a vessel of boiling starch. The little one was badly burned about the head, the flesh falling from its face in patches. It will recover.

Convention at Leetonia.

The Firemen's annual convention will meet in Leetonia Wednesday, and visiting delegations from Wellsville and other towns will be in attendance.

METHODISM.

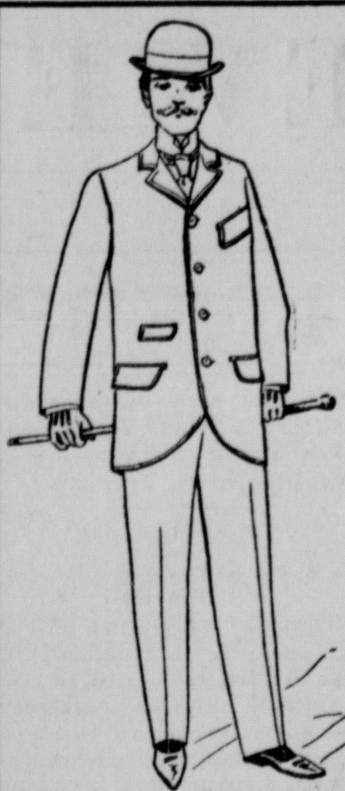

The general conference, now being held at Cleveland, demonstrates conclusively the fact that there is an ever growing spirit of Republican sentiment in the minds and hearts of the rank and file of the church, and that a monarchical form of government is becoming more and more distasteful to the members of the various churches in the land. The women of the church are apparently determined that they are entitled to some consideration, and they are bringing able coadjutors to the front in the battle of equal rights. Lay representation is destined to have a voice, and the ministers who fondly imagined that they might exercise autocratic and despotic power will be relegated to their proper place in the government of affairs.

The News Review is Republican from center to circumference, in the truest sense of what the name implies, and it will never be enslaved for a single moment by unprincipled men. Turn on the light.

BOOKWALTER'S VIEWS.

Cleveland on a Free Silver Platform at Chicago.

FOREIGN RELATIONS THE ISSUE.

He Says Two Months Will Develop Such a Crisis That the Democrats Will Take Up the President and Nominate Him. Political Matters.

SPRINGFIELD, O., May 11.—John W. Bookwalter, the Democratic candidate for governor of Ohio some years ago, predicts that Grover Cleveland will be nominated for the fourth time at the Chicago convention in July. He eulogizes the president as the leader of tariff reform and says he is now wanted as the leader of the war party in this country.

Mr. Bookwalter believes that the conditions in foreign affairs, especially with Great Britain and Spain, will be such two months hence as to compel the Democracy to take up President Cleveland and the war sentiment will be in his favor in November. He says the administration will be heard from at the proper time on the Cuban question, and also on the Venezuela boundary, and then it will be Cleveland's call.

Mr. Bookwalter also predicts a free silver platform and that the party will thus be kept together for a great struggle. Mr. Bookwalter expects to go to the Chicago convention as a delegate.

INSTRUCTED FOR A SILVER MAN.

The Nevada Republican State Convention Names Delegates to St. Louis.

VIRGINIA CITY, Nev., May 11.—The Republican state convention has adopted resolutions containing a declaration for free and unlimited coinage of silver at 16 to 1; an expression favoring the election of Nevadans who make their homes in this state to offices of United States congressmen and senators. The national delegates were pledged only to use all honorable means to nominate an advocate of silver at the St. Louis convention. The delegates chosen were: C. H. Sproule, Elko; John Torrey, Eureka; W. S. Bonfield, Humboldt; J. B. Overton and Enoch Strother, Storey; W. D. Phillips, Washoe, and A. C. Cleveland, White Pine.

Silver Instructions Talked Of.

BUTTE, Mont., May 11.—The Republican state convention is in session here today. Some of the delegates threaten the introduction of a resolution instructing the presidential delegates to vote for other than the presidential nominee if silver is not recognized in the St. Louis platform.

A VETO IS FEARED.

River and Harbor Bill Will Be Hurried to the President.

WASHINGTON, May 11.—The probabilities are that the consideration of the river and harbor appropriation bill will be concluded today. According to agreement this bill will be followed by the resolution to seat Mr. Dupont as a senator from Delaware. With the Dupont resolution disposed of the bill making appropriations for the District of Columbia will be considered and it probably will consume the remainder of the week.

It is not expected that the river and harbor bill will remain long in conference, as there is a disposition manifest in both houses to get the bill to the president as early a date as practicable. This is due to the fear of a veto and to the determination to remain in session long enough to give congress time to act in case of such adverse endorsement by the president.

Battleship Turret All Right.

WASHINGTON, May 11.—An experimental firing on a turret constructed precisely similar to that of the battleship Massachusetts, with the object of determining whether the structure would properly support the armor at the impact of a heavy projectile from one of the largest guns was made Saturday at the Indian Head proving grounds. It was satisfactory.

What the House May Do.

WASHINGTON, May 11.—The indications are that the house will drift along for the remainder of the session, giving conference reports on appropriation bills the right of way, and disposing of such incidental matters as it can.

THE QUEEN OF HER CLASS.

The Battleship Oregon Shows Even More Speed Than the Massachusetts.

SANTA BARBARA, Cal., May 11.—The battleship Oregon, the official trial of

which will be made tomorrow, is the queen of her class. The Oregon has arrived here from San Francisco and her behavior on the trip caused Irving M. Scott, her builder, to express the belief that on her official trial she will beat the record of her sister ship, the Massachusetts.

Admiral Beardslee shares the opinion of Mr. Scott. On the trip down the coast the Oregon made 15 or 18 miles at the rate of 16.34 knots an hour, and not even then was pressed to her full capacity. As the official record of the Massachusetts is only 16.15 knots, the performance of the Oregon places her at the head of her class of battleships.

A Treaty Anniversary Celebrated.

FRANKFORT-ON-THAINE, May 11.—The twenty-fifth anniversary of the treaty of Frankfort, which concluded the Franco-Prussian war, was celebrated here Sunday in continuation of the fetes and celebrations which have been held throughout Germany in commemoration of the twenty-fifth anniversary of the events of the war.

Tried to Mob Umpire Keefe.

LOUISVILLE, May 11.—Many of the fans who attended Sunday's game between Brooklyn and Louisville were dissatisfied with several of Umpire Keefe's decisions and would have mobbed him after the game had it not been for police interference. He was conducted to his hotel by six policemen.

CZAR'S CORONATION.

Festivities Have Commenced Preceding the Grand Event Next Thursday.

ST. PETERSBURG, May 11.—Next Thursday the coronation of Nicholas II, czar of Russia, will be celebrated in Moscow, with extraordinary magnificence, and be made the occasion of a series of brilliant entertainments, balls, fetes and military parades of a most gorgeous character. The festivities began on Sunday, the date of the entry of the czar into Moscow, and continue till the 28th, when they will end in a grand and imposing military parade. All the crowned heads of Europe will have special personal representatives present, besides the ambassadors of the various countries they govern.

On the 14th the impressive ceremonies of the coronation will be performed, followed by a dinner to the court, and an illumination of the Kremlin. Then follow two days of "felicitations," first by the court, second by the clergy. On the 17th the anniversary of the coronation of Alexander III, father of the present emperor, will be observed. On the next day, the 18th, will be a grand gala spectacle in honor of the czar's twenty-eighth birthday.

Then follow popular fete days, balls, dinners for the ambassadors and foreign representatives, for those from the provinces of Russia and for the authorities of Moscow. Interspersed with these will be days for solemn religious services, and finally these memorable coronation ceremonies will close with a magnificent military parade.

KAIN TAKES THE PALLIUM.

Impressive Services Conducted by Cardinal Gibbons in St. Louis.

ST. LOUIS, May 11.—Amid the most impressive ceremonies ever celebrated within the walls of the old Cathedral, Right Rev. John J. Kain, archbishop of the diocese of St. Louis, was Sunday invested with the Order of the Pallium, the sacred insignia of his archiepiscopal office.

This is the first time in the history of the archdiocese of St. Louis that the investiture of the pallium upon the archbishop has been solemnized. A large number of the most distinguished prelates and church dignitaries from all over the country graced the occasion by their presence, and assisted in the ceremonies. The conferring of the pallium was performed by Cardinal Gibbons of Baltimore, assisted by 25 archbishops and bishops and 100 or more priests. Bishop Keane of Washington preached the sermon.

ATLANTA FORGETS THE WAR.

Wants the G. A. R. Encampment of 1897. Decoration Day Plans.

CHATTANOOGA, May 11.—It is understood here that a new departure will be made in the observance of Decoration day. The Queen and Crescent route will bring an immense concourse of soldiers and their friends from the north who will visit Chickamauga park, Look-out Mountain and Mission Ridge battlefields and will assist in decorating the graves in the National cemetery. A nominal rate for the round trip from Cincinnati has been made for this occasion.

Numbers of veterans will make this trip and it is expected to be followed by an effort to get the national G. A. R. encampment in 1897 at Atlanta.

BISHOP WALDEN'S PLAN

It Is Much In Favor With M.
E. Delegates.

WANTS BISHOPS INCREASED TO 21.

This Would Give Nine to Foreign and
Missionary Work—Twelve to Stay In
This Country—Candidates For the New
Places—The Sunday Services.

CLEVELAND, May 11.—The delegates to the Methodist general conference are beginning to discuss the coming election of bishops, which will be the business next in importance to the disposition of the woman delegate question. It has been decided that no nominations will be made, the list being open to as many candidates as desire to enter. The delegates will vote for whomsoever they please, those first receiving a majority being elected. Already a number of candidates have been announced. Among them are Rev. Dr. J. W. Bushford, president of Delaware (O.) university; Dr. J. E. W. Bowen of Atlanta, Dr. Earl Cranston of Cincinnati, Dr. J. R. Day of Syracuse, Dr. Joseph C. Hartzell of Louisiana, secretary of the Freedmen's Aid society; Dr. J. M. Buckley of New York, Dr. C. C. McCabe of New York, Dr. S. F. Upham of New England conference, Dr. William A. Spencer of Philadelphia, Dr. T. B. Neeley of Philadelphia, Dr. Charles W. Smith of Pittsburgh and Dr. George E. Reed of the New York East conference.

It has not yet been decided how many bishops will be chosen, but the plan recently proposed by Bishop Walden is meeting with favor. At present there are 16 bishops. Twelve are located in this country, two are missionary bishops in Africa and India, and two are occupied in missionary work in various countries. Bishop Walden suggested that the two missionary bishops be made full-fledged bishops and be given episcopal residences in Africa and India, and that five additional bishops be created with episcopal residences, one to be assigned to India, another to China, a third to Japan, a fourth to Europe and fifth to South America. He thought 12 bishops would then be able to perform the work in this country which is now done by 14 men, because

they would be relieved of the foreign work. If that suggestion is followed five new bishops will be elected, and the total number increased to 21. Already some lively electioneering is being done, and when the voting begins the contest will be spirited.

The religious services at the armory Sunday consisted of a sermon by Rev. Crawford Johnson, fraternal delegate from the church in Ireland. The visiting ministers supplied pulpits in nearly all the Protestant churches of Cleveland and many of the surrounding towns.

At Saturday's session of the Methodist Episcopal conference a union with the Wesleyan church was authorized and the initial step was taken that may ultimately result in the consolidation of the two branches of the Methodist Episcopal church in the United States, North and South.

Several times serious disturbances threatened the peace of the gathering, but was adroitly averted in every instance by reference to committee of the objectionable matter, so that on the whole the session was the most pacific of any of the week.

During the day a resolution was adopted condemning the laws of Florida, where it is illegal for colored and white children to receive instruction in the same school. A resolution of sympathy with Cuba was also adopted.

Raised the Necessary Cash.

NEW YORK, May 11.—George Simpson received by mail a donation from a friend of Barnard college of \$5,000, which made up the \$100,000 required to get control of the other \$100,000 promised four years ago by a lady friend of the college.

Robinson Going to England.

CAPE TOWN, May 11.—Sir Hercules Robinson, governor of Cape Colony, will sail for England May 30 for the purpose of discussing the South African situation with Joseph Chamberlain, secretary of state for the Colonies.

Trying to Break a Record.

PROVIDENCE, May 11.—C. W. Butts and C. K. Goodwin, two prominent men, started today upon a bicycle trip to California, with the intention of breaking the present record.

Murdered by Savages.

SAN FRANCISCO, May 11.—The steamer Monawai brings news of the wholesale massacre of traders and missionaries by natives of the islands of Manning straits and the Solomons.

fought in the political arena with the

courage and pluck worthy of a better

cause. But Democracy has never

known a time in its history when the

outlook for victory has been so dis-

couraging as at present. The people

—the masses—placed the party in

absolute power, under oaths and

pledges that the country at large

should bloom and blossom like the

rose, and that the wheels of American

industry should revolve unceasingly,

to the tune of good wages. Every

promise the party has made has been

broken, and, from Grover Cleveland

down to the most petty office in his

gift, or in the gift of the party, the

offices have been run on the idea of

spoils, permitting the country at large,

and its industrial interests, to go to

the demerit bow-wows, don't you

know, while the interests of our

foreign brethren, over the seas, you

know, have been looked after with

great zeal and energy, as there has

been money in so doing, by Jove, don't

you know. Well, the masses are angry

—wrought up to fever and fighting

heat over the sorry condition of af-

airs, as they recognize that bread and

butter are at stake, and the unwashed

and untutored can feel them no more,

talk they ever so charmingly, lie they

ever so glibly. The handwriting of a

great Republican victory is written

upon the wall, in ineffaceable letters

of living flame, and the bright intel-

lects of the Democratic party are fully

aware of this fact. McKinley is evi-

dently the choice of the people in the

coming issue. There is a possibility

that the power of combination may

defeat his nomination at St. Louis;

but this is hardly probable. Be the

result as it may in the matter of the

nomination, the Republican nominee

at St. Louis will be elected, for the

platform of the Grand Old Party of

progress is bulwarked of the material

that the people desire. This being a

foregone conclusion, a wise, honest

and patriotic policy should and must

control in the Republican party

organization; and, if conducted on

this idea, the idea of the greater good

to the greater mass, Democracy will

never again resume the reins of govern-

ment in this fair land.

THE SCHUMACHER FAILURE.

Assets Estimated at \$2,000,000 and Li-

abilities \$1,500,000.

AKRON, O., May 11.—Ferdinand Schu-

macher, the "Oatmeal King," and

president of the American Cereal com-

pany, assigned by turning over for the

benefit of his creditors his entire prop-

erty. The assets are estimated at \$2,000,000,

and the liabilities will reach \$1,500,000.

The assignment was caused by heavy

losses in the Marcellus Land and Water

Poster company and the Illinois River

Paper company of Marcellus, Ills., which

went to the wall in consequence of the

failure of the chief stockholder. Mr.

Schumacher turns over his property to

his nephew, Hugo Schumacher, and

Attorney J. A. Arbogast, both of this city.

While not exactly an assignment, the

transaction is equivalent to such.

Hugo Schumacher said that the fail-

ure was caused by the fact that \$200,000

worth of paper was coming due this

month. Some of it could not be re-

newed, nor could an extension of time

in any way be had.

In addition to the failure of the two

Marcellus concerns, whose estimated

liabilities are \$750,000, the Schumacher

Gymnasium company of Akron with a

capital stock of \$50,000, was forced to

the wall.

He Says Two Months Will Develop Such

a Crisis That the Democrats Will Take

Up the President and Nominate Him.

Political Matters.

SPRINGFIELD, O., May 11.—John W.

Bookwalter, the Democratic candidate

for governor of Ohio some years ago,

predicts that Grover Cleveland will be

nominated for the fourth time at the

Chicago convention in July. He enu-

olizes the president as the leader of

tariff reform and says he is now wanted

as the leader of the war party in this

country.

Mr. Bookwalter believes that the con-

ditions in foreign affairs, especially

with Great Britain and Spain, will be

such two months hence as to compel

the Democracy to take up President

Cleveland and the war sentiment will

be in his favor in November. He says

the administration will be heard from

at the proper time on the Cuban ques-

tion, and also on the Venezuela bound-

ary, and then it will be Cleveland's

call.

Mr. Bookwalter also predicts a free

silver platform and that the party will

thus be kept together for a great strug-

gle. Mr. Bookwalter expects to go to

the Chicago convention as a delegate.

SPANISH CAN NOW BACK DOWN

Without Appearing to Yield to the United States—Britain's Protest Received Kindly, Our's With Rage—Referred to the Home Government.

HAVANA, May 11.—The Spanish government has been asked to approve the sentences of death passed by the court-martial upon the men captured on board the filibustering schooner Competitor. The men sentenced are:

Alfredo Laborde, said to be the leader of the party and claiming American citizenship; Dr. Elias Bedia, also claiming American citizenship; William Gildea, said to be a British subject; John Milton, a native of Kansas, and Teodoro Mita, a Cuban.

This places the fate of the men in the hands of the authorities at Madrid and insures that they will not be executed without an order from the Spanish government.

James Creelman, correspondent of the New York World, and Frederick W. Lawrence, correspondent of the New York Journal, who were ordered by the authorities to leave the island for having sent dispatches to their papers offensive to the government, have sailed for New York on board the Ward line steamship Segura.

It is said that Captain General Weyler is greatly irritated at the attitude of the United States on the question of the sentences. It is asserted that if the Spanish government adopts a contrary view, owing to the representations made by the United States government, Captain General Weyler will resign his post.

Allegations are made of extraordinary conduct on the part of Mr. Ramon O. Williams, United States consul general. The United States consul general shows himself everywhere in public places in Havana, using irritating and menacing language regarding the probable action of the United States toward the authorities in case the sentences upon the Competitor captives are executed.

It has become known that the British consul has also intervened in the name of his government on behalf of the Competitor's captives sentenced to death. He invokes clemency for the prisoners.

This action of the British government in the case has caused a sensation here and it has been the topic of comment by all social classes in the community.

It would be difficult to say from any admissions made in official quarters what effect this new development will have on the case. There is a marked absence of irritability manifested in the comments on the subject and the action of the British official seems to have been taken in very good part. It is pointed out that the intervention of the British consul is couched in very different form from that of the United States consul general and is, in fact, expressed in very friendly terms invoking the clemency of the Cuban authorities.

The question of the execution of the captives of the Competitor is recognized to be one of the most important which has occurred since the insurrection broke out. Now that the question has been referred to the government at Madrid, the situation has quieted down, though there is no cessation of interest and discussion of the question. The attitude of the public is rather one of waiting on the resolution of the Madrid government. The waiting is attended by much impatience and no little anxiety.

EXCITEMENT IN SPAIN.

The United States Protest Makes the Dons Very Angry.

MADRID, May 11.—There are evidences of growing popular excitement in Spain over the attitude of the United States government toward the question of filibusters captured on board the Competitor.

The news of the capture of the men on the Competitor was received with great satisfaction and rejoicing. It was felt to be the first opportunity that had been offered to make an example of those engaged in feeding the insurrection. The popular demand for their execution is general and is likely to become vociferous. Little account is taken of the refined questions of treaty interpretation involved in the protest of the United States government against the execution of the sentences. The action of the United States is regarded rather as an expression of sympathy with the insurrection, and there will be a strong popular clamor to disregard it.

NO TROOPS CALLED OUT.

Governor Mitchell Denies a Sensational Story From Cuba.

TALLAHASSEE, May 11.—Governor Mitchell's attention has been called to the dispatch from Tampa stating that he had telegraphed to Major Connelly to hold the Fifth battalion in readiness for immediate action, on account of the

bold stand taken by the president regarding the imposing of the death sentence on the men captured aboard the Competitor.

The governor stated emphatically that he had had no recent communication with Major Connelly on any subject and expressed surprise that such a report should have gotten abroad.

SPAIN ADMITS DEFEAT.

The Premier Says Spanish Arms Can't Subjugate Cuba.

MADRID, May 11.—At a meeting of Conservative senators and deputies, the premier, Senor Canovas del Castillo, declared that it would be impossible to introduce reforms for Cuba before the situation there had become normal again.

He admitted that the Spanish arms alone would fail to terminate the war, but he said he believed that the discouragement of the insurgents and the prevalence of racial hatred among them would contribute largely to the cessation of hostilities.

REMEMBER THE VIRGINIUS!

English Newspapers Comment on the Gravity of the Situation.

LONDON, May 11.—The Daily News says in an editorial today regarding the cases of the Competitor captives at Havana:

The serious news from Cuba places the Spanish government between two fires. It is difficult to see how either side can recede. If the Spanish government sacrifices General Weyler, it will probably have to be prepared to sacrifice its own life. Public opinion in Madrid is hardly well informed enough to profit by the Virginius case in 1873. The Spaniards ought to distrust their own natural ferocity in cases of this sort. The butchery of the men of the Virginius, which many of them applauded at the time as a fine and spirited act, was received with horror and execration throughout the world.

The Standard has an editorial upon the sentences to death of the men captured on board the Competitor, which says:

The opinion seems to prevail that the sentence of the British subject (William Gildea) will be commuted in recognition of Great Britain's friendly attitude. But this would be impossible, as the exercise of mercy in one instance would render a denial in the others more invidious. The position of the Spanish government must attract general sympathy. It has a choice of evils, but it cannot be doubted which it will choose, provided it is possible to avoid hostilities consistent with the Spanish conception of national dignity.

The Chronicle says in an editorial:

Free Cuba has long been the eager desire of a large body of American opinion. The present incident may or may not be tied over, but it seems to be the beginning of the end. President Cleveland has an admirable opportunity. We will not regret if he has used it to the full. Nothing could so forcibly strike the imagination of the electorate as the emancipation of Cuba. There cannot be any doubt as to the merits of the case. We assume that there are faults on both sides, but it is obvious to all that the Spanish rule in Cuba is inapt and abominable. Its rulers have learned nothing from progress and less than nothing from disaster. Their cup is full, and unless some marvel intervenes to save them again from their own folly, it seems inevitable that the end will come soon.

CONGRESS LIKELY TO ACT.

The Trouble With Spain Expected to Come Up.

WASHINGTON, May 11.—If any official news has been received by the government in Washington regarding the men captured aboard the Competitor by the Spaniards and condemned by court-martial to be shot, diligent inquiry fails to disclose its nature.

The Cuban situation as presented by the imposition of the death sentence upon the members of the Competitor party brings forward a decidedly interesting condition which may result in an attempt at action on this question by the senate during the week. In fact, the outlook in this direction is full of possibilities.

It is not improbable that a resolution regarding the protection of two Americans sentenced to death by the Spanish authorities at Havana may be presented and furnish the text for a reopening of a discussion of the entire Cuban situation.

WHAT OUR DEMAND IS.

Only Object to Form of Trial—Spain Considers It.

LONDON, May 11.—The Madrid correspondent of the Standard says: "Senor Canovas del Castillo has publicly stated that America has not protested against Spain's right to punish filibusters, but only against the summary trial. American citizens are entitled to be tried in the civil courts under the treaties of 1795 and 1877."

"The Spanish government is willing to consider the demand, and has cabled to Captain General Weyler to delay the executions pending the result of negotiations which are actively proceeding between Washington and Madrid to define the interpretation of the aforesaid treaties."

The case will probably be carried to the supreme court should the prosecuting attorney of Fayette county desire to continue with the trial of Coit.

STILL AFTER COIT.

Attorneys Question Authority of State to Nolle Indictments.

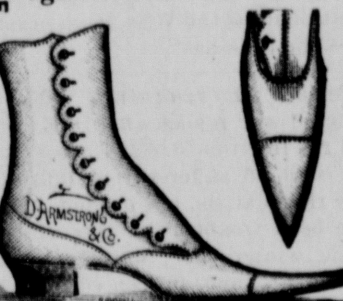

WASHINGTON, C. H. O., May 11.—It is stated that Attorney General Mennett will come to this city today and nolle the two indictments for manslaughter still standing against Colonel A. B. Coit, of the Fourteenth regiment, A. N. G., in the common pleas court of Fayette county. A prominent attorney says:

"Attorneys here and elsewhere are smiling at the idea of the legislature naming authority to require Fayette county to give bond in the sum of \$50,000 as a guarantee against the state being put to any further expense should another of the cases be tried against Coit and result in an acquittal and in case of the failure of the county to do so authorizing the attorney general of the state to nolle the indictments. The laws already provide for the disposition of such cases, and the state legislature has no more right to interfere in this case than it would have in any other state case."

While there are many persons in Fayette county who oppose the further trial of the Coit cases, yet nobody takes any stock in the authority of the attorney general to nolle the two remaining indictments. The case will probably be carried to the supreme court should the prosecuting attorney of Fayette county desire to continue with the trial of Coit.

THE MAY ASSIGNMENT

Undergoing a Change at the Hands of the Attorneys.

WANTS HIS STONE QUARRY

And a Judgment For \$175 From a Lessee. Jury Commissioners Appointed—A Man Bound Over to Keep the Peace—Court News.

Special to the News Review.

LISBON, May 11.—Judge Smith on Saturday afternoon appointed W. H. Hepburn, of Lisbon; Prof. I. P. Hole, of Damascus; F. E. Russell, Inverness, and A. Mascher, of East Palestine, jury commissioners for a term of one year, and instructed them to meet on May 25 in Auditor Harvey's office for the purpose of selecting 200 names of persons throughout the county with which to fill the jury wheel.

The month's assignment is gradually undergoing a change at the hands of the attorneys. The damage case of Amanda Hamilton, executrix, versus the East Liverpool and Wellsville Street Railway company, which was assigned for hearing one week from tomorrow, has been passed at the request of the plaintiff's attorney. The case of John Randolph versus George Perkins, marshal of Salineville, to recover \$1,000, which was set for hearing on next Friday, has been continued until the next term, owing to the death of one of the bondsmen.

E. P. Burnett, of Lisbon, has filed an action against John O'Mara, who, for the term of 15 years, has operated a stone quarry on the Nypano. The action claims violation of the contract between plaintiff and defendant, and asks for an injunction which will enjoin O'Mara from working the quarry or entering the premises. A judgment for \$175 is also asked. O'Mara leased the quarry for a period of 30 years, during which time he was to pay Burnett 20 cents for each perch of stone quarried, and by the terms of this lease the prompt and punctual payment of all monies was to be a precedent to the rights of the defendant to longer occupy the premises by virtue of the lease. During the past year 870 perches have been quarried, for which the defendant owes \$175, and which amount is unpaid. His accounts are claimed to be fraudulent and he declines, unless compelled, to yield to the plaintiff possession of the land, although the lease is claimed to be absolutely null and void.

Papers were filed on Saturday which binds John Lotham, of Lisbon, to the state in the sum of \$50 to keep the peace. The plaintiff, William W. Pickfork, states that he has cause to fear injury at the hands of Lotham, as he has threatened his life. The case came from Squire Fountain's court in Salem.

The motion to dismiss the appeal to the common pleas court in the matter of the exception of the estate of the late John Hollinger, of Elkrun township, has been argued to Judge Smith, but no decision has as yet been given. The ground of the motion is that the party appealing claims to do so in the interest of the estate, but that no notice of any intention to appeal was ever filed in the probate court as required by law.

Judge Robinson, of Ravenna, the same who presided at the famous "Blinker" Morgan trial, arrived here at noon, and will open court this afternoon with the case of Lewis Trotter versus the city of Wellsville, which was substituted by the case of Robert Welsh versus Wellsville, the former to go over until Wednesday of the same week.

Sheriff Gill and two assistants took Henry Lyons, of Wellsville, and Theodore French, of Salem, to Cleveland workhouse this morning, and three insane people to Newburg.

Marriage licenses were issued to Harry Poole and Rosa Stanley, and John P. Howell and Laura Bell.

Do you wish to inspect fine lumber? If so, call on the J. T. Smith Lumber company. They handle splendid building material, and at prices lower than the very lowest. It will pay you to deal with the above company.

PERSONAL MENTION.

—Brady Larkins rode the tandem to Salem yesterday.

—S. M. Ferguson went to Steubenville this morning.

—David Spahr, of Tarentum, spent Sunday with relatives here.

—Thomas Bott went to Cincinnati on the Virginia Saturday night.

—James Logan, of East Palestine, spent Sunday with his family on Sixth street.

—O. J. Bannon and wife, of East Palestine, spent Sunday in the city, the guests of Mrs. Bannon's parents, F. S. Albright and wife.

—Jud Frederick and Peck McKinney rode their bicycles to Salem yesterday, and James York went to Steubenville by the same means.

—Miss Marguerite Geon, of Pittsburgh, accompanied by her sister, Mrs. C. A. Smith and child, of Midway, Pa., are visiting relatives in the city.

—Mrs. S. V. Fisher returned home on the afternoon train Saturday from Pittsburgh. She had been undergoing treatment at the West Penn hospital for some time past.

Persons who sympathize with the afflicted will rejoice with D. E. Carr, of 1,235 Harrison street, Kansas City. He is an old sufferer from inflammatory rheumatism, but has not heretofore been troubled in this climate. Last winter he went up into Wisconsin, and in consequence has had another attack. "It came upon me again very acute and severe," he said. "My joints swelled and became inflamed; sore to touch or almost to look at. Upon the urgent request of my mother-in-law I tried Chamberlain's Pain Balm to reduce the swelling and ease the pain, and to my agreeable surprise, it did both. I have used three 50 cent bottles and believe it to be the finest thing for rheumatism, pains and swellings extant. For sale by A. H. Bulger, druggist.

Sealed proposals will be received by Edwin Oppelt until noon, May 22, '96, for the erection and completion of the German Lutheran church building, corner of Third and Jackson streets, East Liverpool, O. Plans and specifications can be seen at the office of A. W. Scott, architect, on and after Monday, May 11 1896. The committee reserve the right to reject any or all bids. By order of the BUILDING COMMITTEE.

Acting Mayor.

Squire Manley is acting as mayor during the absence of his honor, who is in attendance at the meeting of the state council of the American Mechanics, in session at Akron.

Dr. S. F. Scott, Blue Ridge, Harrison county, Mo., says: "For whooping cough, Chamberlain's Cough Remedy is excellent." By using it freely the disease is deprived of all dangerous consequences. There is no danger in giving the remedy to babies, as it contains nothing injurious. Twenty-five and 50 cent bottles for sale by A. H. Bulger, druggist.

Out Again.

Frank H. Croxall is on duty again, after a week's serious illness of tonsillitis.

A lady at Tooleys, La., was very sick with bilious colic when M. C. Tisler, a prominent merchant of the town, gave her a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says she was well in 40 minutes after taking the first dose. For sale by A. H. Bulger, druggist.

ROWDYISM RAMPANT

Curses, Billingsgate and a Final Knock Down.

THE RESIDENTS VERY INDIGNANT

There Was a Jubilee in Front of the Saloon at Corner of Robinson and Walnut Streets on Sunday Night—Residents of the Neighborhood Indignant.

Shortly after the congregation of the Christian church had been dismissed on Sunday night, and the members had made their way home, the quietness and sanctity of the night was disturbed by an unseemly brawl, in front of the saloon at the corner of Walnut and Robinson streets, said saloon now being run by William Morrow but better known as Poker Anderson's place. The language used by those engaged in the disturbance was simply awful, and the law-abiding citizens of the immediate community are very indignant, and justly so, and they demand that a halt shall be called on such infamous work, and that those who took part therein shall be punished to the limit. A well-known resident called up the mayor's office by phone at the time of the fracas, but received no reply.

The blackguards who took part in the affray finally came to blows, and made night hideous with language unfit to appear in print. The News Review has been informed that no prosecution will follow, simply because the residents do not desire to become parties to a law suit. This is unfair to our officials, as they are men of the right calibre and are determined that all such ruffianism shall cease, or the offenders received condign punishment. It is at times unpleasant for private citizens to prosecute such law-breakers; but is their bounden duty to do so, else the roughs and toughs will become emboldened and act out their own sweet will.

The participants in the proceedings were bridge men, one of them boarding at the Anderson house and the other at the National house. The discussion was over stone cutting and resulted in one of the men being knocked down.

William Morrow, the proprietor of the house, was seen this afternoon and said that it was through no fault of his that it happened, as it was all over so quick that he had no chance to put a stop to it.

UNENDING.

There is an end to kisses and to sighs; There is an end to laughter and to tears, An end to fair things that delight our eyes, An end to pleasant sounds that charm our ears, An end to enmity's foul libeling And to the gracious praise of tender friend; There is an end to all but one sweet thing—To love there is no end.

That warrior carved an empire with his sword, The empire now is but like him—a name, The statesman spoke, and by a burning word Kindled a nation's heart into a flame, Now naught is left but ashes, and we bring Our homage to new men; to them we bend. There is an end to all but one sweet thing—To love there is no end.

All beauty fades away, or else, alas! Men's eyes grow dim, and they no beauty see, The glorious shows of nature pass and pass, Quickly they come; as quickly do they flee, And he who hears the voice of welcoming Hears next the slow, sad farewell of his friend. There is an end to all but one sweet thing—To love there is no end.

NEW JERSEY'S OLDEST HOUSE.

Built at Lyons Farms by the Original Meeker Who Left Connecticut.

The old Meeker house, at Lyons Farms, is claimed by that family to be the oldest house in New Jersey—not one of the oldest, but the oldest. It is now occupied by William Gummum, who is a lineal descendant of the original Meeker, who held his patent from the crown.

There is an amusing incident connected with this patriarch which gave rise to the building of the house in question. He was originally of the Connecticut colony, and, being the owner of a small sloop, his fishing excursions sometimes extended far into the Sabbath day. This did not meet with the ideas of those days, so he was fined several times, and more severe punishment was threatened if he did not attend divine worship regularly and cease his labors on the Lord's day.

But one dark night Meeker placed all his goods on board his boat and sailed away. He settled in New Jersey and there erected the house which still stands. The precise year in which it was built is not known, but one of Mr. Gummum's ancestors was born there in 1677.

The roof of this curious old farmhouse has been renewed many times, but the side walls of cedar shingles remain as they were put on by the old man, with hand wrought nails, more than two centuries ago and are yet in very fair condition. Inside some rooms are wainscoted with tulip poplar. The ceilings are low. The double doors still swing on the strap hinges which first held them in position, while other surroundings are in strict keeping with the antiquated appearance of the place.

Beside the well sweep stands a large stone, hollowed out like a basin, in which many generations have cleansed their hands and faces at the well after the fashion of former times.—New York Herald.

and, it would appear, encouraging experiments with what is called cork pavement, from the fact that cork is the most prominent and essential ingredient in the amalgam of which it is composed. The pavement used in Vienna consists of granulated cork mixed with mineral asphalt and other cohesive substances, compressed into blocks of suitable size and form. Among the numerous advantages set forth in its behalf are cleanliness, noiselessness, durability, elasticity, freedom from slipperiness, whether wet or dry, and moderate cost. Unlike wood, too, it is nonabsorbent and consequently inodorous. It presents the minimum resistance to traction, and being elastic under passing loads does away with the vibration caused by heavy teaming. The blocks are imbedded in tar and rest upon a concrete base six inches thick. When taken up for examination, they have exhibited, when compared with new ones, a reduced thickness by wear of less than one-eighth inch, this in the case of a section of a London street leading to the Great Eastern railway station, subjected to continuous heavy traffic, the blocks having been in use nearly two years.

—Mrs. S. V. Fisher returned home on the afternoon train Saturday from Pittsburg. She had been undergoing treatment at the West Penn hospital for some time past.

Persons who sympathize with the afflicted will rejoice with D. E. Carr, of 1,235 Harrison street, Kansas City. He is an old sufferer from inflammatory rheumatism, but has not heretofore been troubled in this climate. Last winter he went up into Wisconsin, and in consequence had another attack. "It came upon me again very acute and severe," he said. "My joints swelled and became inflamed; sore to touch or almost to look at. Upon the urgent request of my mother-in-law I tried Chamberlain's Pain Balm to reduce the swelling and ease the pain, and to my agreeable surprise, it did both. I have used three 50 cent bottles and believe it to be the finest thing for rheumatism, pains and swellings extant. For sale by A. H. Bulger, druggist.

Four Arrivals.

Born to Mr. and Mrs. John Scott, Sugar street, Saturday evening, a daughter.

Born to Mr. and Mrs. John Young, East End, twins.

Notice to Contractors.

Sealed proposals will be received by Edwin Oppel until noon, May 22, '96, for the erection and completion of the German Lutheran church building, corner of Third and Jackson streets, East Liverpool, O. Plans and specifications can be seen at the office of A. W. Scott, architect, on and after Monday, May 11 1896. The committee reserve the right to reject any or all bids. By order of the BUILDING COMMITTEE.

Acting Mayor.

Squire Manley is acting as mayor during the absence of his honor, who is in attendance at the meeting of the state council of the American Mechanics, in session at Akron.

Dr. S. F. Scott, Blue Ridge, Harrison county, Mo., says: "For whooping cough, Chamberlain's Cough Remedy is excellent." By using it freely the disease is deprived of all dangerous consequences. There is no danger in giving the remedy to babies, as it contains nothing injurious. Twenty-five and 50 cent bottles for sale by A. H. Bulger, druggist.

Out Again.

Frank H. Croxall is on duty again, after a week's serious illness of tonsillitis.

A lady at Tooleys, La., was very sick with bilious colic when M. C. Tisler, a prominent merchant of the town, gave her a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says she was well in 40 minutes after taking the first dose. For sale by A. H. Bulger, druggist.

ROWDYISM RAMPANT.

Curses, Billingsgate and a Final Knock Down.

THE RESIDENTS VERY INDIGNANT.

There Was a Jubilee in Front of the Saloon at Corner of Robinson and Walnut Streets on Sunday Night—Residents of the Neighborhood Indignant.

Shortly after the congregation of the Christian church had been dismissed on Sunday night, and the members had made their way home, the quietness and sanctity of the night was disturbed by an unseemly brawl, in front of the saloon at the corner of Walnut and Robinson streets, said saloon now being run by William Morrow but better known as Poker Anderson's place. The language used by those engaged in the disturbance was simply awful, and the law-abiding citizens of the immediate community are very indignant, and justly so, and they demand that a halt shall be called on such infamous work, and that those who took part therein shall be punished to the limit. A well-known resident called up the mayor's office by phone at the time of the fracas, but received no reply.

The blackguards who took part in the affray finally came to blows, and made night hideous with language unfit to appear in print. The NEWS REVIEW has been informed that no prosecution will follow, simply because the residents do not desire to become parties to a law suit. This is unfair to our officials, as they are men of the right calibre and are determined that all such ruffianism shall cease, or the offenders received condign punishment. It is at times unpleasant for private citizens to prosecute such lawbreakers; but is their bounden duty to do so, else the roughs and toughs will become emboldened and act out their own sweet will.

The participants in the proceedings were bridge men, one of them boarding at the Anderson house and the other at the National house. The discussion was over stone cutting and resulted in one of the men being knocked down.

William Morrow, the proprietor of the house, was seen this afternoon and said that it was through no fault of his that it happened, as it was all over so quick that he had no chance to put a stop to it.

UNENDING.

There is an end to kisses and to sighs;
There is an end to laughter and to tears,
An end to fair things that delight our eyes,
An end to pleasant sounds that charm our ears.
An end to enmity's foul libeling
And to the gracious praise of tender friend;
There is an end to all but one sweet thing—
To love there is no end.

That warrior carved an empire with his sword.
The empire now is but like him—a name.
That statesman spoke, and by a burning word
Kindled a nation's heart into a flame.
Now naught is left but ashes, and we bring
Our homage to new men; to them we bend.
There is an end to all but one sweet thing—
To love there is no end.

All beauty fades away, or else, alas!
Men's eyes grow dim, and they no beauty see.
The glorious shows of nature pass and pass.
Quickly they come, and quickly do they flee.
And he who hears the voice of welcoming
Hears next the slow, and farewell of his friend.
There is an end to all but one sweet thing—
To love there is no end.

NEW JERSEY'S OLDEST HOUSE.

Built at Lyons Farms by the Original Meeker Who Left Connecticut.

The old Meeker house, at Lyons Farms, is claimed by that family to be the oldest house in New Jersey—not one of the oldest, but the oldest. It is now occupied by William Gunmon, who is a lineal descendant of the original Meeker, who held his patent from the crown.

There is an amusing incident connected with this patriarch which gave rise to the building of the house in question. He was originally of the Connecticut colony, and being the owner of a small sloop, his fishing excursions sometimes extended far into the Sabbath day. This did not meet with the ideas of those days, so he was fined several times, and more severe punishment was threatened if he did not attend divine worship regularly and cease his labors on the Lord's day.

But one dark night Meeker placed all his goods on board his boat and sailed away. He settled in New Jersey and there erected the house which still stands. The precise year in which it was built is not known, but one of Mr. Gunmon's ancestors was born there in 1677.

The roof of this curious old farmhouse has been renewed many times, but the side walls of cedar shingles remain as they were put on by the old man, with hand wrought nails, more than two centuries ago and are yet in very fair condition. Inside some rooms are wainscoted with tulip poplar. The ceilings are low. The double doors still swing on the strap hinges which first held them in position, while other surroundings are in strict keeping with the antiquated appearance of the place.

Beside the well sweep stands a large stone, hollowed out like a basin, in which many generations have cleansed their hands and faces at the well after the fashion of former times.—New York Herald.

and, it would appear, encouraging experiments with what is called cork pavement, from the fact that cork is the most prominent and essential ingredient in the amalgam of which it is composed. The pavement used in Vienna consists of granulated cork mixed with mineral asphalt and other cohesive substances, compressed into blocks of suitable size and form. Among the numerous advantages set forth in its behalf are cleanliness, noiselessness, durability, elasticity, freedom from slipperiness, whether wet or dry, and moderate cost. Unlike wood, too, it is nonabsorbent and consequently inodorous. It presents the minimum resistance to traction, and being elastic under passing loads does away with the vibration caused by heavy teaming. The blocks are imbedded in tar and rest upon a concrete base six inches thick. When taken up for examination, they have exhibited, when compared with new ones, a reduced thickness by wear of less than one-eighth inch, this in the case of a section of a London street leading to the Great Eastern railway station, subjected to continuous heavy traffic, the blocks having been in use nearly two years.
